CORE SKILLS

AI & LLM

Claude · Prompt Engineering · LangChain · RAG · GenAI · Machine Learning

Data & Analytics

Python · SQL · Power BI · Metabase · Looker · Advanced Excel · App Script

Web & Backend

Next.js · React · Flask · TypeScript · REST APIs

Infra & Platforms

Vercel · Neon · Supabase · AWS · GitLab

Growth & Ops

MoEngage · Gupshup · CRM · Admin Panels

EDUCATION

M.C.A.
CGC — Landran
2024 – 2026 · CGPA 9.08

B.C.A.
Maharaja Agrasen University
2021 – 2024 · CGPA 6.84

CERTIFICATIONS

- **Python Essentials** — CISCO · Apr 2025
- **Data Analysis & Power BI** — Office Masters · Mar 2025
- **AI Developer Internship** — GenAI Tools · Jul 2025

JUNIOR PROGRAM MANAGER — AI · DATA · AUTOMATION

MCA graduate and product-minded builder who turns messy operations into clean, automated tools. I ship AI-powered internal products, CRMs and analytics stacks end-to-end — from database schema to production deployment — using strong prompt engineering and a bias for measurable impact.

EXPERIENCE

Junior Program Manager · Fitelo — Present

Own the build of internal products, AI panels and analytics that power day-to-day operations across teams.

- Designed and shipped a **Quality-team CRM** that converts client emails and WhatsApp queries into structured, trackable tickets routed to Relationship Managers for resolution.
- Built **AI panels and internal tools** powered by Claude and careful prompt engineering to automate repetitive, high-volume workflows.
- Ran production stacks across **Vercel, Neon, Supabase, AWS and GitLab** — owning everything from database to deployment.
- Integrated **MoEngage, Gupshup WhatsApp templates and Metabase** to connect messaging, data and action, with analytics dashboards for decision-making.

Data Analyst · Nureca Limited — Previous

Automated reporting and internal workflows using Google App Script, Sheets and advanced Excel.

- Developed App Script automations and trackers that streamlined recurring team workflows.
- Modelled and cleaned operational data across Google Sheets and advanced Excel.

KEY PROJECTS

Quality CRM & Ticketing System
Email + WhatsApp → tickets → resolution

A CRM where client queries over email and WhatsApp are captured, de-duplicated and turned into trackable tickets that RMs resolve, with full status history and analytics.

Next.js · Supabase · Gupshup · Vercel · AWS

AI Panels & Internal Tools
Claude-powered automation

Admin panels with built-in AI features that automate content, triage and repetitive decisions across internal teams using strong prompt engineering.

Claude · Prompt Engineering · Next.js · Neon

Analytics & Dashboards Stack
Metabase · Power BI · MoEngage

End-to-end analytics surfacing production data through Metabase and Power BI dashboards with MoEngage campaign tracking — live, decision-ready numbers for teams.

Metabase · Power BI · MoEngage · SQL

RAG Chatbot
Document-grounded Q&A

An AI chatbot built with LangChain that retrieves relevant context from documents and answers questions grounded in source material.

LangChain · Python · RAG · GenAI

Stocks Power BI Dashboard
Live-updating market dashboard

Transformed raw Excel stock data into a live, auto-refreshing Power BI dashboard with interactive visuals for tracking performance over time.

Power BI · Excel · Data Modeling

House Price Prediction
Random Forest regression

A predictive ML model estimating housing prices from key property attributes, with feature engineering and evaluation.

Python · Machine Learning · Random Forest
